

Opportunity to be involved as a Research Buddy: *for Lp(a) Research*

THE AIM OF THIS RESEARCH IS TO:

- Determine how we can improve the health and management of people living with high Lp(a), and
- Improve awareness of Lp(a) among health professionals and the community.

ABOUT THE ROLE

Be involved alongside the research team to:

- Share lived experience to help ensure the research matches the needs and priorities of consumers.
- Participate in meetings (or workshops) to provide ongoing input.
- Provide feedback on study materials, resources, and documents.
- Assist with recruitment and communication of the research findings.

YOU MUST:

- Have lived experience of high Lp(a) (*yourself or an immediate family member*)

You might be a great fit if you are...

- Interested in research and making a difference.
- Interested in health (especially nutrition and lifestyle) an advantage, although not essential.
- No prior research experience necessary.

2-3 Research Buddies will be selected

- Please be in touch via email to arrange an informal discussion or for more information .

A \$50.00 / hour honorarium is offered to successful applicants.
